## OUR PROCESS

## BIG BANNER AUSTRALIA

Big Banner Australia offers a One-Stop shop service for all small and big businesses who need a complete solution for ALL their signage, printing, events & exhibition displays, gift and promotion requirements. Big Banner Australia is a manufacturer, a wholesaler and an importer. We have over 20 years of experience in the fields of manufacturing, customer service and logistics. Big Banner Australia was built on a foundation of ethics, hard work, respect and continuous improvement. Our customers and clients are at the core of everything we create and do. We continue to strive to always exceed their expectations.

### Finish Option

# Mesh Banner

MB-350

### Material:

- **PVC Mesh Banner:** 12 x 12 Mesh Panels (small holes)  
6 x 6 Mesh Panels (large holes)
- **The difference between 12x12 & 6x6 Mesh**  
12x12 Mesh is a more close-knit mesh banner stock. The smaller perforations mean that the print image visibility is very high, however the trade-off is that less air flows through the banner. This is 'premium' mesh that may not be the best option for extremely windy environments. In contrast, 6x6 Mesh is considered an open weave mesh. The larger perforations allow more air to move through and is ideal in higher wind load installs. However, due to the nature of the open weaves, there is less surface to print on so there is less actual print, making the image less sharp and vivid.

## Order Process:

- Choose coverage option for your vehicle.
- Send photos of the vehicle (front, sides, back views) & provide logos, contents in one email.
- BBA's design or sales team will reach you to discuss the design idea and prepare for design and mock ups.
- Size measuring (you will need to drive the vehicle to us) and artwork finalizing.
- Installation appointment booking. (within 1 week after payment and artwork approval)
- Clean your vehicle and send it to our factory. (1 full day is needed unless advised for less or more time consuming)
- Vehicle ready for collection.

with replacement parts

## Sports Outdoor Event Run-Through Arch Banners

- Sponsors love Run-Through Banner. It provides an opportunity for them to promote themselves in a way that is guaranteed to have crowd's focus.
- Run-Through banners are perfect for keeping your existing sponsors happy and are very powerful and effective tools to help bring new sponsors on board.
- Made of 250gsm knitted fabric material with single side dye-sub printing.
- Come with pre-cut lines (strips) to allow easy run through for photo taking.
- Portable and reusable.

## Premium Fabric Wrapped Wall Box

This is a super Luxury Fabric made Wall. 30-40cm depth makes it suitable for both indoor and outdoor events. This stylish Wall banner is commonly used by Luxury Brands as it brings most of attention of guests in the events.

- **Hardware:** Perfect Anodized aluminum pole, diameter 32mm, thickness 1.5mm, making the stand very stable and durable.
- **Graphic material:** Polyester fabric
- Box design presents a high quality brand & image
- Tool-free assemble, fast and convenient
- Oxford bag packing

3m x 3m version is suitable for a 3m display space. However, we can custom to whatever size to fit your display demand. The biggest one we've done was 4.5m tall x 15m in width, 90cm in depth. That was a great experience for supplying this Monster Wall, and the best point is, unlike the building timber walls, this Aluminum structured wall is reusable, easy to pack up and storage for next event, thus a worthy investment.

## 1.6M (63") Electrical Wide Format Roll Cold -Laminator, Laminating Machine

LM-M02

- **Max. Laminating width** 1600mm
- **Max. Laminating thickness** 20mm
- **Speed range** 0-7000mm/min
- **Power Supply** AC110, 220V/50, 60Hz
- **Power** 50W
- **Dimensions(LxWxH)** 180x40x40cm
- **Weight** 110kg
- **Application** Indoor/outdoor AD and photograph laminating

Working Width	Price
1600mm	\$1600

## 1.63M (64") 1700F5 Semi-auto Warm Laminating Machine – LAMINTING & CUTTING

LM1700-F5

- **Max.working width** 1630mm/64"
- **Max lamination thickness** 23mm/0.9"
- **Max speed** 6m/min
- **Max temp** 60°C/140°F
- **Up and down** Hand Crank
- **Heating** Infrared
- **Warm up time** 5-10 min
- **Power consumption** 0.5-0.8kw/h
- **Power input** 1400W
- **Volt** 110V/220V
- **Net Weight** 150KG

Working Width	Price
1630mm	\$5900

## Flatbed Rolling Laminator

- **Advantages**
  - Reduce production time dramatically
  - Consistent high quality work flow
  - Time saving means more profit
  - Ergonomically designed, easy to use
  - Minimal training required
  - Only one person to operate
  - For all size prints & different kinds of boards

- **Features**
  - LED table lighting system
  - Heat assisted roller
  - Built-in silent air compressor
  - Heavy duty steel frame
  - Tension media feed shafts
  - Side media roll holders
- **Options**
  - Material holder
  - Clear PVC cutting mat for table top

## MW Transformer

MW-320

- **Features**
  - Constant Voltage + Constant Current mode output
  - Metal housing with class I design
  - Built-in active PFC function
  - IP67/IP65 rating for indoor or outdoor installations
  - **Function options:** output adjustable via potentiometer; 3 in 1 dimming
  - Typical lifespan > 62,000 hours
- **Applications**
  - LED street lighting
  - LED high-bay lighting
  - Parking space lighting
  - LED fishing lamp
  - LED greenhouse lighting
