Business Signage

Please prepare below information when you need a quote:

Draft of design with dimensions marked, if not available, provide contents (letters, logo, font, size of space where the sign will be installed).

Interior or Exterior?

Non-Lit or Illuminated?
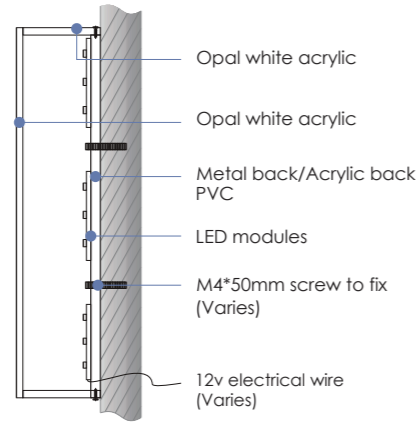

Deadline (if applicable)

Installation Information
(1) Where
(2) Current condition for installation point
(3) Distance from ground

With the above information, a quote/proposal will be provided within 12 working hours.

## Acrylic Fabricated LED Channel Letters 3D-027

Face & Body: Acrylic fabrication/20mm opal acrylic engraved
Finish: Glue sealed, 2 pac paint on face or plain colour acrylic/stainless steel face/UV PVC
Back: Enclosed with 3mm acrylic or metal panel
Illumination: LED modules, 3,000k ~ 10,000k (Dimmer available at extra cost)
Installation: Installation template included, stand-off bolts/screws or flush mounting
Power supply: 12v-240v Meanwell transformer/C-tick Certified
Colour/Size/Shape: Customized

- Opal white acrylic
- Opal white acrylic
- Metal back/Acrylic back PVC
- LED modules
- M4*50mm screw to fix (Varies)
- 12v electrical wire (Varies)

Graphics printed for the frameless light box provide a rich, vibrant colour quality that is second to none.

- **Smooth Edge-less Appearance**

The edge-less (frameless) look is achieved by using fabric which is sewn along the edges with a silicone beading. The graphic is stretched slightly over the extrusion where the silicon beading fits into a channel grove along the outer edge of the display.

- **Portable**

Frameless light boxes are made from lightweight recycled aluminium. It is very easy to dismantle and can be done in just a few minutes, which makes it great for trade shows, events or relocating. Despite their large display size, they can be stored in very small spaces.

Laser Engrave Machine | WMY-2513 Flatbed Laser

The WMY-2513 is a VOLASER for professional large-scale cutting. You can cut many non-metal materials, such as MDF, Acrylic, Bamboo, Cloth, Plastic, and more. Leather, High-power tubes are not suitable for engraving

● **Features**
- 3rd generation high-speed CO^2 laser
- Long-life tube (>10000 hours)
- Imported Lenses and mirrors
- High quality belts
- High-precision stepper motors
- Precision X-Y-Z-Axis control
- 2mm steel used in body construction
- Low maintenance, high reliability
- Quiet and clean cutting
- Shipped to you as a completely pre-as sembled and factory-tested system

● **Advantages**
- Cuts a wide range of materials and thicknesses
- No tool changes reduce job setup time
- Produces a high-quality cut reducing secondary finishing operations and associated costs
- Low electrical consumption
- Perfect for short-run or just-in-time production

WMY-2513

MW Transformer

MW-320

● **Feathers**
- Constant Voltage + Constant Current mode output
- Metal housing with class I design
- Built-in active PFC function
- IP67/IP65 rating for indoor or outdoor instanllations

- **Function options:**
  output adjustable via potentiometer;
  3 in 1 dimming
- Typical lifespan > 62,000 hours

Premium Fabric Wrapped Wall Box

This is a supper Luxury Fabric made Wall. 30-40cm depth makes it suitable for both indoor and outdoor events. This stylish Wall banner is commonly used by Luxury Brands as it brings most of attention of guests in the events.

• **Hardware:** Perfect Anodized aluminum pole, diameter 32mm, thickness 1.5mm, making the stand very stable and durable
• **Graphic material:** Polyester fabric
• Box design presents a high quality brand & image
• Tool-free assemble, fast and convenient
• Oxford bag packing

3m x 3m version is suitable for a 3m display space. However, we can custom to whatever size to fit your display demand. The biggest one we've done was 4.5m tall x 15m in width, 90cm in depth. That was a great experience for supplying this Monster Wall, and the best point is, unlike the building timber walls, this Aluminum structured wall is reusable, easy to pack up and storage for next event, thus a worthy investment.

EXPO Booth Graphic | Shell Scheme Fabric Graphics

Shell wall graphics are a great way to use your designs to bring your exhibition shell scheme to live and attract potential customers to your stand. Fabric graphics are made from top quality materials and are finished with velcro fixings required to attach your graphics walls to the shell scheme.

• Printed on premium 260gsm satin fabric – velcroed on all four sides.
• Seamless mural-style graphics
• Lightweight fabric – easy and light to transport
• Attaches directly to shell scheme carpet wall (LOOP) using Velcro-HOOK stitched to the fabric
• 380GSM PVC print for header option

Colour Choice

The Instant Shade commercial-grade high quality aluminium-framed "market" umbrellas are the ideal shade solution for your outdoor living space.

● **Commercial Quality and Great Value**
Perfect for commercial or residential use to protect you from the harsh Australian sun. The same umbrellas used by cafes, restaurants and resorts all over Australia are also available for your own deck, courtyard, balcony and pool areas at home.

● **The Frame**
The umbrella frames are stylish anodised aluminium which is lightweight and completely rust-free.
The frames come with a 2-year warranty.

● **Weather, Water and UV Resistant Canopy**
The canopies are made of water repellant and UV-resistant long-lasting materials. Canopies come with a variety of stylish colours as well.

Material:

• **PVC Mesh Banner:** 12 x 12 Mesh Panels (small holes)

6 x 6 Mesh Panels (large holes)

• **The difference between 12×12 & 6X6 Mesh**

12×12 Mesh is a more close-knit mesh banner stock. The smaller perforations mean that the print image visibility is very high, however the trade-off is that less air flows through the banner. This is 'premium' mesh that may not be the best option for extremely windy environments. In contrast, 6×6 Mesh is considered an open weave mesh. The larger perforations allow more air to move through and is ideal in higher wind load installs. However, due to the nature of the open weaves, there is less surface to print on so there is less actual print, making the image less sharp and vivid.
