What's in the box?

Big round panel x 1

Small panel x 1 (Optional)

Base stand x 1
Wheel holder x 1

#4

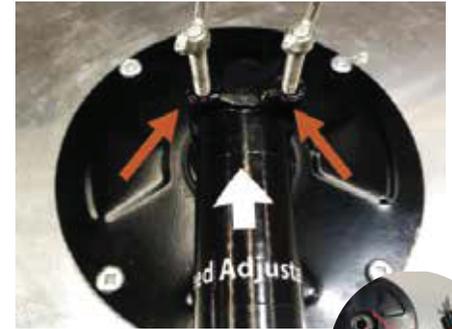

Lay down the big round panel on a flat surface with the graphic side facing up, #4 bolts screwed into the holes as shown the above image.

**If you have purchased this product with printed graphics, please skip to the next step.*

#3

Turn the big round panel to face downwards, install the wheel holder onto the back side of big round panel. Screw #3 bolts into #4, safely secure the big round panel onto the wheel holder.

#2

Screw #2 wing bolts into position marked on the image above.

Note: Wing bolts are for wheel speed adjustment. Over-twisting will cause damage.

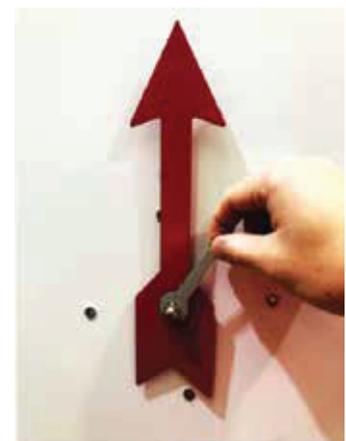

Insert the assembled big round panel and wheel holder into the base stand. Adjust the height and twist the knob clockwise to tighten and lock the sections.

#5 #7

Insert #5 bolt into the hole with graphic side facing towards you, tighten clockwise.

#6 #7

Secure the prize wheel #1 arrow. If you have a small logo panel, place this next. With #6 Bolt, you will use #7 wrench to tighten the bolt clockwise till secure.

Your Prize Wheel Is Ready to Use!
